Automated Employment Decision Tool: Bias Audit Summary

POTENTIAL ADVERSE IMPACT FOUND (impact ratio < 0.80)

AEDT / tool	District teacher-applicant screener (SYNTHETIC demo data)
Vendor / developer	None (constructed demo, gen_teacher_hiring.py)
Tool distribution date	n/a (synthetic)
Independent auditor	Demo output; NOT an independent bias audit under LL144
Audit date	2026-09-30
Data source	data/teacher_hiring_demo.csv (synthetic, seed 20260702)
Records analysed	2,400
Mode	selection

Standard and methodology

NYC Local Law 144 / EEOC four-fifths impact-ratio test. For each demographic category the selection rate (or, for scoring tools, the rate of scoring at or above the median) is computed, then the impact ratio = the category's rate divided by the highest category's rate. A ratio below 0.80 (four-fifths) is the long-standing EEOC threshold for potential adverse impact. Authority: 6 RCNY Sec. 5-300 et seq.; EEOC Uniform Guidelines 29 CFR 1607.4(D).

sex (min impact ratio: 0.9335)

Category	N	Rate	Impact ratio	< 0.80?
Male	728	0.328	0.933	no
Female	1672	0.352	1.000	no

race_ethnicity (min impact ratio: 0.6828) [POTENTIAL ADVERSE IMPACT]

Category	N	Rate	Impact ratio	< 0.80?
Black or African American	297	0.263	0.683	YES
Hispanic or Latino	395	0.314	0.816	no
Asian	176	0.341	0.886	no
White	1428	0.368	0.956	no
Two or More Races	104	0.385	1.000	no

sex x race_ethnicity (min impact ratio: 0.6127) [POTENTIAL ADVERSE IMPACT]

Category	N	Rate	Impact ratio	< 0.80?
Female / Black or African American	204	0.245	0.613	YES
Male / Hispanic or Latino	118	0.271	0.678	YES
Male / Black or African American	93	0.301	0.753	YES
Female / Asian	118	0.322	0.805	no
Female / Hispanic or Latino	277	0.332	0.830	no
Male / Two or More Races	24	0.333	0.833	excl. <2%
Male / White	435	0.343	0.856	no
Female / White	993	0.379	0.947	no
Male / Asian	58	0.379	0.948	no
Female / Two or More Races	80	0.400	1.000	no

An impact ratio below 0.80 flags potential adverse impact and warrants further review; it is descriptive and is not by itself proof of unlawful discrimination. Computed only on the data provided; the audit itself simulates no records.
